DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed on September 09, 2005 has been entered:
 - Claims 1-5 have been amended;
 - Claims 6-7 have been cancelled;
 - New claim 8 has been entered.
2. The corrected or substituted drawing (Fig. 4) was received on September 9, 2005.

Allowable Subject Matter

3. Claims 1-5 and 8 are allowed.
4. The following is the examiner's statement of reasons for allowance:

Claims 1, 2 and 3 are allowed because in part recites a light guide plate with a "reflection surface having a textured surface and asymmetric prisms" and "chamfered portions at both upper and lower ends" (claim 1), "curved portions at both upper and lower ends" (claim 2), and "chamfered portion at one end and curved portion at the other end" (claim 3) of the light receiving side surface. This combination in a light guide plate is not taught by the prior art of record, and the combination provides improved light scattering by preventing a formation of a dark-bright fringe pattern which is caused by the light rays emitted from the non-chamfered or non-curved edge portions of the light guide plate. The light scattering is further improved with the textured reflection surface that is formed near the light receiving surface of the light guide plate and the

asymmetric prisms which are formed far away from the light receiving side surface of the light guide plate.

5. Claims 4, 5 and 8 are allowed because of their dependency upon independent claims 1-3.
6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
